CAREER OBJECTIVE :

Motivated and skilled Java Full Stack Developer with a strong background in designing and implementing responsive, scalable applications. Proficient in Java and JavaScript frameworks, with a proven ability to deliver high-quality software solutions. Seeking to apply my technical expertise and passion for software development to contribute to a dynamic team environment.

PROFILE SUMMARY:

- **Experience:** 3+ years as a Java Full Stack Developer in the IT industry.
- **Expertise:** Proficient in the Software Development Life Cycle (SDLC), from requirements gathering to deployment.
- **Technical Skills:** Skilled in Java, Spring Boot, React.js, Hibernate, and RESTful APIs.
- **Team Collaboration:** Strong interpersonal skills and experience working in cross-functional teams.
- **Focus Areas:** Scalable solutions, responsive design, and performance optimization.

ACADEMIC DETAILS:

- **M.Tech in ME Embedded Systems and Computing**, Osmania University (2019–2021)
- **B.Tech in Computer Science and Engineering**, Sree Dattha Group of Institutions, JNTUH (2015–2019)

KEY SKILLS:

- **Programming Languages:** Java, JavaScript, SQL
- **Frameworks/Libraries:** Spring Boot, Hibernate, React.js, FreeMarker, jQuery
- **Web Technologies:** HTML, CSS, JSP, XML, JSON
- **Tools:** Git, Maven, Jenkins, Docker, Eclipse, VS Code, MRemoteNG, FileZilla
- **Databases:** MySQL, Oracle, Elasticsearch
- **Other Skills:** RESTful APIs, GraphQL APIs, Shell Scripting, Log4j.

EXPERIENCE:

Java Full Stack Developer

ITalent Digital Pvt. Ltd.   Hyderabad (Nov 2021 – Present)

- Developed and maintained web applications using Java, Spring Boot, Hibernate, and React.js.
- Designed RESTful APIs for seamless integration between front-end and back-end systems.
- Collaborated with UI/UX designers to create responsive, user-friendly interfaces.
- Ensured data security through robust implementation of security protocols.
- Deployed applications on AWS platforms.
- Conducted code reviews and optimized application performance for scalability.

PROJECTS EXPERIENCE:

Cisco Reimagined Project
ITalent Digital Pvt Ltd | Hyderabad

2021 November - 2022 December

Project Description: Developed customer-related applications using Kohros platform for Cisco Customer Experience (CSE). Implemented features and enhancements for Cisco internal tech writes using java script and Freemaker khoros .

Responsibilities:

- Collaborated with stakeholders to gather and analyze requirements.
- Designed and developed frontend and backend components using java script, Jquery and Freemarker .
- Integrated third-party APIs and services to enhance application functionality.
- Conducted unit testing and debugging to ensure application integrity and performance.
- Maintained codebase and implemented version control using Git and SDK .
- Supported continuous integration and deployment processes using Jenkins.

Cisco Techzone Project
ITalent Digital Pvt Ltd | Hyderabad

2023 January - *December 2023*

Project Description: Managed and enhanced Cisco Techzone platform, facilitating internal employees to write, post, and publish articles about Cisco Products . Collaborated with cross-functional teams to ensure seamless content management and publication.

Responsibilities:

- Developed frontend and backend features for Cisco Techzone using Java , React js , Freemaker , Javascript , Mysql etc .
- Implemented content management functionalities allowing employees to draft, review, and publish articles.
- Triggered the jobs in **Jenkins** for continuous integration and continuous deployments (CI/CD).
- Monitored the error logs using **log4j**.
- Created **Shell Script** to invoke Java programs on UNIX batch platforms.
- Integrated authentication and authorization mechanisms to control access to article publishing features.
- Designed and implemented responsive user interfaces to enhance user experience.
- Conducted performance optimization and maintenance activities to ensure platform reliability.
- Supported ongoing enhancements and updates based on user feedback and platform analytics.
- Created and handled Custom-**Exceptions** that are related to business operations.
- Ensured compliance with Cisco's branding and content guidelines.

AutoDesk Project
ITalent Digital Pvt Ltd | Hyderabad

2022 December

Project Description: Managed user information and roles within AutoDesk platform, implementing automated scripts for role removal and user cleanup based on defined criteria (e.g., inactive users from the last 3 years). Ensured efficient user management and security compliance.

Responsibilities:

- Developed scripts and automation tools using java to remove roles and deactivate inactive users.
- Implemented role-based access control (RBAC) mechanisms to manage user permissions and access rights.
- Collaborated with stakeholders to define user management policies and refine scripts for optimal performance.
- Conducted regular audits and reports to ensure data integrity and compliance with security standards.
- Provided support and training to end-users on user management functionalities and script usage.

Kohros Platform Upgrade to Aurora
ITalent Digital Pvt Ltd | Hyderabad

2024 January - *Present*

Project Description: Led the upgrade of the Kohros platform to Aurora while integrating GraphQL APIs and implementing React.js for frontend development. The project aimed to enhance performance, scalability, and user experience.

Responsibilities:

- Managed the migration strategy from Kohros platform to Aurora , ensuring data integrity and minimal disruption.
- Designed and developed GraphQL APIs to streamline data retrieval and manipulation across the platform.
- Developed an SDK CLI script using [mention specific technologies or scripting languages] to automate platform tasks and enhance developer productivity.
- Conducted performance testing and optimization to ensure optimal platform performance post-upgrade.
